## **Comments Report**

## 6. Open Response:

- <sup>6.1)</sup> What are the strengths of this course?
- All of the lessons are straightforward and well-explained, and I've leaerned a lot.
- I guess it will prepare me for future math classes?
- 6.2) What changes would you recommend that would improve this course?
- I don't see aything that needs improving. Yes, it's a hard class, but you can make good grades if you try hard.
- Slowing down the course and really explaining the material instead of saying "you should know this already."
- <sup>6.3)</sup> Any further, constructive comments?
