- the program I wanted to take was only offered online

5. Course Design

^{5.13)} Please add a comment about the course design.

- Not having recorded lectures/zoom meetings/videos every week makes this class very difficult. Having something recorded every week and uploaded for us would be very much appreciated and helpful! My team members a thought this as well.

Also, some of the mentors assigned don't really help out our team.

9. Final Comment

^{9.1)} The comment box provides an opportunity to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important influence on course improvement.

- Not having recorded lectures/zoom meetings/videos every week makes this class very difficult. Having something recorded every week and uploaded for us would be very much appreciated and helpful!

The first week I saw the lecture Dr. Griffin had, as well as recorded videos that will help us. This was very helpful and I looked forward to taking the HSM program but that was only the first week. After that, we didn't have anything recorded or lectures. We learned everything on our own and I believe wholeheartedly that we learn better when we have teachers. That is what a teacher is for. To teach us about the materials.

Also, some of the mentors assigned don't really help out or provide clear information.
