- Grace Itiowe
- Grace Itowe (2 Counts)

6. Open Response:

6.1) What are the strengths of this course?

- Assignments
- How flexible is for working students.
- Learning how to make way without specific instructions.
- The grading rubrics and being able to learn as you go.
- The Instructor....
- The course requires you to challenge yourself.
- The discussion boards
- The information and assignments given were clearly stated, and professor feedback was always useful.
- The professor is very understanding and helpful. She is very compassionate and a great professor to work with and study under.
- The team I was assigned to for this course.
- Very informative
- being able to read a issue and understand what it means and what the directions are asking
- reading everything, as well as watching all viedos

6.2) What changes would you recommend that would improve this course?

- At least, let us submit our discussions by Sunday instead of Wednesday.
- Clearer instructions on group projects, without the mentor our group would've been very lost.
- Doing voiceover powerpoints breaking down how to do certain approaches or deliveries, explain why it's important and why you should choose a certain approach.
- Group Presentations....
- Having a record lecture
- I was satisfied with this class everything was done in a timely manner and a enough time given to complete assignments.
- I would make the course work less extensive. It is very difficult to remain on schedule.
- I would recommend better instructions regarding assignments.
- I would recommend this course be a little longer most students have other classes and jobs and a minimester is very difficult
- More detailedi nstructions
- No change needed, it work very well for me.
- No changes

■ None

■ not giving as my back ground to assessments. Just stating the case study, and what it is we need to do. With all the information before the actual assessments was super confusing. It just added more stress.

6.3) Any further, constructive comments?

■ Great course... The Instructor is awesome.... I'm extremely excited about my future with Brazosport College.

■ My suggestion is to teach and break down different scenarios, definitions, and the different chains in the industry. This class would be more understanding if taught how to do things instead of having the student teach themselves and hope for the best.

■ The professor was always a phone call away.

■ it was a great course and perfect for getting back into the routine of college classes.
