2. More Than One Instructor:

2.1) **If your course had more than one instructor,** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- Dr. Harold Griffin

6. Open Response:

6.1) What are the strengths of this course?

- Management and Teamwork

- New learning experience with materials and knowledge.

- Real world challenges, a wide sampling of financial applications within the healthcare industry, and I think the group work is beneficial in developing leadership and teamwork.

- That it was online

- The professor is very encouraging and motivating when times got hard. He encouraged me to keep pushing to the end when I was ready to give up!

6.2) What changes would you recommend that would improve this course?

- Assistance with how to do the problems. Especially for those of us who do not know how to use Excel. There is no one at the student learning center to assist us. I was told they can only help lower level classes only. Other classmates have expressed this same problem and dropped the program. This is a big shame.

- I

- I wish there were instructor recordings on class topics and office hours to discuss the topics. I feel like I have to teach myself everything and that asking the professor questions is an unfruitful endeavor.

- More information regarding the weekly assignments. Maybe include videos with examples of the homework of the week so we can get an idea of how to complete them rather then reading notes or powerpoints. I feel as if i'm going in blind to each assignment with little help.

- More instructor lecture. Less reliance on independent study and YouTube.

- No changes at all

- When giving students material to help them along the way, making sure theres also items available in a reading format instead of just video will go a long way with a lot of students that can learn better.

6.3) Any further, constructive comments?

- I am also considering dropping the program since my last five classes involve using Excel. i have already taken some of these classes once before and it still didn't help me this time with the Excel program. I have spend a lot of money out of my pocket to obtain my degree and now I feel I need to drop the program with only five classes to finish.

- Understand that the course instructions are extremely vague and that there is not class before this that remotely talks about the in depth finances expected in this class. Also not enough practice available.
