## Comments Report

## 6. Open Response:

- <sup>6.1)</sup> What are the strengths of this course?
- I found this course particularly hard and had trouble understanding several portions of this course not because of poor instruction but because I generally struggle in math.
- The availability of the instructor. Dr. Nasser always help us when we have questions or we do not understand an assignment.
- The project is laid out very clearly and follows well with the weekly curriculum.
- 6.2) What changes would you recommend that would improve this course?
- I think that there needs to be a pre-requisite to this course that teaches all of the excel formulas and how to create charts since a good portion of this class required using them.
- None
- none
- <sup>6.3)</sup> Any further, constructive comments?
- Dr. Naser is a great instructor and provided plenty of useful videos and Power Point instructions that were useful in this course.
