2. More Than One Instructor:

2.1) **If your course had more than one instructor,** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- Balog

- Theresa Balog

6. Open Response:

6.1) What are the strengths of this course?

- Strengthening my knowledge of organizational leadership and team bonding through group meetings.

- Team project was great.

- The instructor was responsive and available for questions regularly. The simulation was easier to complete individually then discuss in the meetings instead of running it together in the meeting. The discussion post topics were great and related to the book pretty well.

- The material was very relevant and understandable. The different forms of learning were practical. The simulation and team assignments were very helpful.

6.2) What changes would you recommend that would improve this course?

- None.

- Not any really the issues I have is more from work.

- The presentation of the debrief was unclear including the deliverable presentation that was separate for the week 8. The instructor didn't have any clear direction to offer for what was expected either. The status reports leading up to the week 7 live debrief didn't make sense to me because we don't have any material to assess for the live debrief until week 6 and then its due the same week which really gives no time to complete the assignments that count for large portions of the course grade.

6.3) Any further, constructive comments?

- I feel this class prepared me for real world circumstances and challenges. I connected with my instructor. I appreciated the live meetings she did at the beginning and the middle of the course. I also appreciated her feedback in the grades.

- I personally would prefer the final deliverable come from individual work not team assignments. I also didn't feel the final deliverables related to the book well and seemed disconnected but again it could be poor communication leading to misunderstandings on my end.

- N/A

- Not really.
