No) 100%	

Comments Report

2. More Than One Instructor:

- ^{2.1} If your course had more than one instructor, in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.
- Buchanan

6. Open Response:

- ^{6.1)} What are the strengths of this course?
- Explains how it works and properly draw an isometric and, orthographic.
- Great teacher. Makes classes informative and fun. Always willing to help
- Has many opportunities to open up with a class discussion to figure out solutions to the questions asked.
- The knowledge of the instructor
- There really aren't strengths to this course. I dread Coming in every Tuesday. Cause I just Don't understand it. I'm trying but I'm not getting it. Also I not buying the book that cost almost 100 dollars to just use it for one module. I refuse to waste my money for just one module.
- ^{6.2)} What changes would you recommend that would improve this course?
- I would Recommend ALL teachers to be on remind which makes it so much easier for students who don't always remember to check their emails. Sure remind students to check it but also as a back up plan have the teachers to download remind and use it. So for this course he does videos lectures plus we get to class and he lectures there too which sounds kinda waste of time if he's going to be talking on the video plus in class. Also all he does is talk about the way to the problem but never really shows how to solve it. So he just wants us to remember every little number he's saying which sounds very ridiculous to me.
- N/A
- Probably nothing at all
- This course is already great.
- none
- ^{6.3)} Any further, constructive comments?
- I dont Like this class. I hope I pass It just to go on with my career plan and I hope I never Have a teacher like him. Again.
