## **Comments Report**

#### 1. Student Information

- 1.3) Other reasons (please specify)
- I feel that online courses teach a very valuable lesson, discipline and responsibility. Since I don't have a teacher's physical guidance, I am responsible for gaining a full understanding of the lesson in a timely manner. The skills that I am learning will be very beneficial toward my future in general.
- It also gives my schedule more flexibility.
- 2. I use the following computer system or device to access my online course(s). (check all that apply)
- <sup>2.5)</sup> Other computer system or device:
- No other system.

- This is the only course I have taken that doesn't feel like work. I enjoy the time I spend with the lessons and the knowledge I gain from them.
- Wish i could take clases In class i feel as if i would get more out of it but overall satisfied with experience

- The course design is great for students who do not want to meet but are still eager to learn. In my class, we do not have scheduled zoom meetings but the information the teacher requires us to learn is exactly what we need to know for our assignments. There's no extra "fluff" work it's just pure information that pertains exactly to what we need to know.

### 8. My instructor....

- 84) Please add any comments you would like to anonymously share with your instructor.
- No comment.
- The information you have us learn throughout the checklists is extremely helpful. Practice tests make the content easier and give the students a chance to understand what they need to prepare for.
- Your course is a treat for me. I enjoy the knowledge I gain from every chapter.

### 9. Final Comment

- 9.1) The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- Great class, learning alot, textbook is kind of diffucult to read sometimes. Other than that I am having fun with this class
- I appreciate your positive and encouraging attitude!
- I enjoy this course structure very much. The textbook information can sometimes be hard to understand but the questions you give us to answer and the essential points help sum it up. Everything in the checklist is dead on for understanding the content and learning it. Some teachers do not provide as many helpful sources and practice tips/questions that would really help students in their course. It's also very convenient to not have any zoom meetings. I can do my work and carry on with my day I can even sleep in without having to worry about being somewhere at a certain place and time. It allows for freedom in my schedule and makes me look at learning as less of a chore and more of a hobby that I'm willing to enjoy on my own.
- I have really enjoyed this class. The feedback on the assignments and quizzes was very informative. I really enjoyed how you took the time to explain and critique the work I submitted. I enjoy the feedback cause I feel it allows me to grow as a student and better my understanding of what I may have done wrong. Thank you for a very informative semester. I was very worried about taking this course I was worried that I would not understand it or that I would get bored. You have made it very informative and fun.

- The professor provides great feedback which helps ensure full understanding. Some video lectures would be nice so we could get a feel for the professor, but the content is very thorough as is. Discussions, given the course content, were very helpful and engaging, more would be enjoyable.
- out of my instructors I have had in the past you are by far the one instructor that really puts effort in making sure that we achieve the best possible grade. Many professors do not do that at all. They do not offer extra credit or any extra opportunities at all. I would have taken advantage of them more it is just this semester I am taking above the normal credit load so everything is due close together for all of my classes. Also some advice on the course evulations to get the students wanting to take it one of my professors offers extra credit on an upcoming exam or extra bonus points to passing on a low quiz grade. As a college student we will mostly do anything for a good grade so that might up in adding some bonus points if they take this survey. My professor also has us show proof that we take the survey so he can see we actually took it. hope this helps !!!!
