6. Open Response:

6.1) What are the strengths of this course?

- Deleon's availability and willingness to help her students is the biggest strength of this course. I had difficulty with an item in Excel over a weekend. I sent her an email on Friday afternoon, expecting a Monday reply. To my surprise, she replied within the hour and I was able to complete my weekend assignment. Other email communications have been prompt and cordial. Her video lectures are informative and relevant and she gives "heads up" warnings when extra time is needed as difficulty in material progresses for procrastinators. THE best interaction BAR NONE from a professor in the BAT Program, so far.
- Learning the basics of Microsoft Office. Been using Office for 20 years, still learned new things.
- Mrs. Deleon made herself very available when needed, and she always updated the content area when needed.
- You get to learn a lot and get it all done in 8 weeks.
- self pace and great feed-back

6.2) What changes would you recommend that would improve this course?

- Don't mess with a good thing.
- I wouldn't make any changes.
- To not be led by Cengage Mind Tap or have a different way that we can pay for 8-week classes. Currently, you have to pay for a semester (4 weeks) when you're only using it for half of that time.
- Using Office for Mac presents some challenges. For example, in the newest version of Excel 365, the auto data analysis is not available. I could not find a substitute. Luckily, I have a Windows PC too.
- online can be harder but it's do able

6.3) Any further, constructive comments?

- N/A
- No
- Thank you Dr. Deleon.
