6. Open Response:

6.1) What are the strengths of this course?

- Learning new ways to use the different functions.

- The SAM training and the instructor's knowledge

- The strengths of this course are that the instructor explains what will be going on during the week . When our assignment are graded and we are did something wrong it is explained on the dropbox folder.

6.2) What changes would you recommend that would improve this course?

- I wouldn't recommend anything everything is laid out and explained nicely .

- Show in detail some of the multiple step functions, it is easy to get lost and frustrated. I've had to look up quite a few YouTube videos because it wasn't covered in the class video.

- none

6.3) Any further, constructive comments?

- N/A
