## Comments Report

## 6. Open Response:

- 6.1) What are the strengths of this course?
- The textbook used in this class was very helpful to this course and I was able to apply that same material to my other class.
- There are great study resources and the assignments are straightforward
- 6.2) What changes would you recommend that would improve this course?
- It would've been helpful if the instructor had more communication with the class. It took me a while to get the hang of all the assignments because I did not understand what we had to do.
- There is too much to read and too many assignments. The workload is a lot.
- <sup>6.3)</sup> Any further, constructive comments?
- That is all.
- on the group presentation, I think the instructor should've assigned team members rather than us figuring out our own team. it took me over a week to have a team because either classmates weren't emailing me back or they were as equally confused as I was. The instructor should communicate with the class better and make sure they understand work.
