2. More Than One Instructor:

2.1) **If your course had more than one instructor.** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- Bernice Allen-Stroh
- Gregg curry

6. Open Response:

6.1) What are the strengths of this course?

- I really like how hands on this course was. Being able to see what equipment does and how it works was very helpful
- Professor Stroh really brings our her personality in a fun way to learn and keeps us attentive to her. Also very helpful and thorough with her presentations.

6.2) What changes would you recommend that would improve this course?

- I seen a lot of struggle coming from everyone trying to use the PET at the same time which hinders us on our scheduled class time. We kept getting kicked off equipment so that industries training could go and I felt that the school was prioritizing them over the students. I understand that they paid for it just like we did. I feel the students should come first. The changes I would make is if we have school Monday- Thursday then that should be time for students and industry. Training should be done Fridays.
- Nothing

6.3) Any further, constructive comments?

- No
