Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.

- Although it would take you a while to reply, I loved everything about this course. I enjoyed your Robotics class a lot! Thank you for being enthusiastic about what you teach, many professors don't do that. Thank you for always being so helpful and clear on your instructions. I had you in a previous class in-person and I learned so much and you were always willing to help. When I saw Robotics as one of my next courses and as ONLINE, I was planning on not taking it. I knew I would not enjoy it because it would be difficult and boring at the same time. Then I realized it was with you and let me tell you I was not disappointed. You always made the lectures fun and EASY to understand. Thank you for loving what you do. If there is any more classes that I have to take they will definitely be with you if possible. I am very thankful for professors like you, you made this "difficult" course into an "enjoyable" one. I would even show my programs to my siblings and they could see how much I enjoyed Robotics. Professors like Mr. Curtis Frank is what makes Brazosport College great!
