Certificate in a technical area	0%	
<sup>7.5)</sup> I am currently a high school student taking college courses.		
Yes	0% n	n=5
Νο	100%	

## **Comments Report**

## 2. More Than One Instructor:

- <sup>2.1</sup> If your course had more than one instructor, in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.
- Berg
- Berg, Allison
- Dr. Herbert
- Mrs. Berg
- Mrs. Whitehead

## 6. Open Response:

- <sup>6.1)</sup> What are the strengths of this course?
- I really enjoyed going to Matagorda. I know some of my classmates complained about the drive, I think it was worth it.
- Instructor is very knowledgeable in all aspects of the clinical environment. Is always available to answer questions.
- My instructor giving me encouragement with my skills and helping me when I need it.
- <sup>6.2)</sup> What changes would you recommend that would improve this course?
- The college reimbursing us for gas to get to clinical
- The documentation process and learning what is expected of our documentation. I think that there needs to be a few days before clinicals start to give the students a mock scenario on a patient, then have them document on this. The students can be given the complete scenario, such as: the patient had low blood pressure and medication was held (the student would document that XXX medication was held due to BP being 88/48). The priority worksheet also needs to be explained more, We did have a review with our current instructor and she went over the priority with giving us a scenario and explained everything and how it was incorporated into the documentation. This made everything flow!!! Or it could of been, that it is to that point of where everything is coming together for me.
- <sup>6.3)</sup> Any further, constructive comments?
- Mrs. Whitehead is very knowledgeable and was very helpful on the medsurg floor
- N/A
- There were a few complaints from classmates about this instructor, but all in all, I think she was ok. She did have a meeting with our group and apologized to us about not following us around. She explained to the group that we are LVN's and that we should know the basics of what we are doing and if we needed her for anything we could groupme or text her. We all did have her phone number.
