6. Open Response:

6.1) What are the strengths of this course?

- Always had feedback from my assignments.

- I improved on essays; she uses an assignment for future students, which is fantastic. I never had a teacher who wanted to use my project in the future.

- I love the material, and the instructor is very engaging. She's great and very creative with assignments.

- Instructor provide feedback all the times.

- Mrs. Steele gave excellent feedback! The course was tailored to be very personable, the content introduction included the name of the student.

- The work is very evenly spread out allowing time to work on all classes evenly and the content is exactly what I expected and wanted it to be.

6.2) What changes would you recommend that would improve this course?

- N/A

- Nothing everything is great

- Nothing; I think it is a great course!

- The only criticism I could think of is having a slight variety between weekly assignments and projects to have a more clear schedule but that's honestly all I can think of.

- none (2 Counts)

6.3) Any further, constructive comments?

- N/A

- She is awesome.

- When I go to check my "progress" or grade, there is nothing there. I can see what my overall grade is in all my other classes, but this one has no grade available to view under the "assessments" tab and then under "progress." I can see each grade I have made, but there is no overall percentage available to us. It would be nice to see how we are doing as we go along.
