Comments Report

2. More Than One Instructor:

2.1) **If your course had more than one instructor,** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- Smirabi

6. Open Response:

6.1) What are the strengths of this course?

- Accessibility to the instructor and clear instructions throughout
- Complete and comprehensive.
- Everything was laid out in a very easy way to read and reference. The class instructor was extremely helpful
- I was sufficiently challenged by the content but not too much as to want to pull my hair out. In terms of engagement, I am less fearful/intimidated by it and feel more empowered to learn even more about information systems.
- The course was perfect, the syllabus and the assignments were in one general area and I really liked that great experience.
- This course was interesting.

6.2) What changes would you recommend that would improve this course?

- Because I align more with the "behavioral side" of enterprise management, I would benefit from audio/video instruction to better conceptualize the content.
- N/A (2 Counts)
- The course and the instructor did well. I was not a fan of the Redshelf platform because it was glitchy on a regular basis. The search function was not always reliable. The Redshelf site would occasionally say I was not authorized to view certain pages.
- The only thing I would change for this course is to make all assignments available from the beginning, some of the students in this BAT program sometimes are short on time and that would make things easier to get done.
- none

6.3) Any further, constructive comments?

- I have enjoyed this class very much
- N/A
- N/a
- The assignments were clear and straight forward. However, the page numbers provided in the instructions and syllabus did not seem to always match up with the version of the book we are asked to purchase. While I was not impacted by this, this may cause some students some confusion.
