7.2) This course is instructed as:

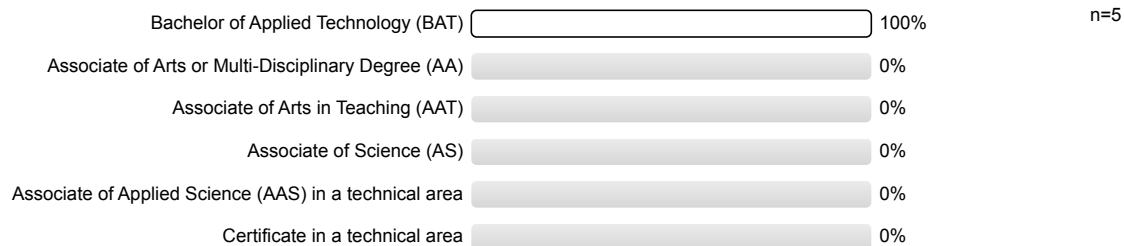

n=5

7.3) This term I am currently enrolled in:

n=5

7.4) My current major is:

7.5) I am currently a high school student taking college courses.

Comments Report

6. Open Response:

6.1) What are the strengths of this course?

- N/A
- The strengths of this course is learning about the use of information technology in commercial and industrial enterprises. Topics include the use of computers and software in communication, accounting, inventory management, production, automation, sales, and financial forecasting. The weekly discussion questions cover interesting topics that relate to modern business operations, and it information captures the student's attention. I didn't know exactly what the course would cover, pre-enrollment, however I've enjoyed all of the course material during these last few weeks.

6.2) What changes would you recommend that would improve this course?

- Instructor feedback was difficult to understand, should be clearly explain in a manner for everyone to understand. Shorten the material for example, maybe assign fewer assignments and focus on case studies more thoroughly or more assignments less focus on case studies. Overall too much material to cover in the allotted time for the course.
- There aren't many changes that I would recommend to improve this course, since it's already enjoyable. The content is well explained, and organized for students.

6.3) Any further, constructive comments?

- Instructor is very patient and willing to explain directions for course to students.
- This has been one of my favorite courses during this degree program. Dr. Mirabi has been a wonderful professor that offers clear instructions, along with wonderful assignment feedback. I've been pleased with the entire course-work.
