6. Open Response:

6.2) What changes would you recommend that would improve this course?

■ More time on quizzes or not have the quizzes timed. To not put extra stress on test taking.

■ The instructor could record himself teaching the course or record himself solving the homework like Dr. Li. This course is not easy so watching videos that are 10 years old is useless. The videos didn't exactly show you how to solve the problems. If you had incorrect homework - the instructor should've explained where you went wrong. We would get our homework grade after taking the quiz, so we had no idea if we were on the right path.

6.3) Any further, constructive comments?

■ The book was not easy to follow.
