- The entire degree is structured to be online.

2.5) Other computer system or device:

- Chromebook

## 3. Your Course

3.4) Please add any comments you would like to share.

- I don't think online is the issue. I don't think course subject matter is either. Clear communication from the instructor has been a little lacking.
- I sent the professor multiple emails and never received a response. These emails involved questions about assignments and ended up relying on other students to help me as much as possible.
- feedback was delayed, vague and not clear. Delay on responding to questions. Instructions for work was very confusing. Syllabus and dropbox dates varied and non consistent.

## 4. Services and Technical Support

Rate your level of satisfaction with the BC services for this course.

4.14) Please comment on BC support for online classes.

- Support seems to know or catch issues before I encounter them. I work so I only log in when possible from home.

## 5. Course Design

Course activities (assignments, discussions, quizzes)....

5.13) Please add a comment about the course design.

- Instructor was no present for questions and concerns. Team groups were left in confusion on how to proceed with work. Delay by weeks with feedback on assignments and just noted "requirements not met," or "good job." No solid feedback to help direct us if we were on the right path of what we need to do.
- The instructor communication was at times unclear making it difficult to know the focus of the assignment. Attempts to contact the instructor sometimes got a response and sometimes did not get one at all. Multiple mistakes or missing information in course management.
- The professor seems to have been extremely too busy in order to be much help to me personally and from speaking with other students in the class, they experienced the same things. Emails, texts and phone calls that were not answered or responded to.

## 8. My instructor....

8.4) Please add any comments you would like to anonymously share with your instructor.

- He mentioned that he was working in West Texas and was not readily available, but I think you will see by all of the grades in the class, he was not clear on what he wanted us to learn.
- I think more clarity of what you ask of your students on assignments and better communication would help students succeed more in this course.
- Instructor needs to be easier to reach or be willing to answer emails in a timely fashion. Grades need to be posted sooner and instructions

to assignments need to be clearer or refer to second hand sources for further information or assistance.

## 9. Final Comment

- <sup>9.1)</sup> The comment box provides an opportunity to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important influence on course improvement.
- I did not have major issues, although I did have some minor ones. I was able to more or less figure things out on my own and do ok. I know it is online, but I feel like I have had better instruction and communication from other instructors in the same online format. While I do not feel it hurt me drastically, I do know I have had communications with other students that feel that it did hurt them a lot on their performance in the course.
  - I will state that this class was the most I have struggled and had difficulty with since beginning the BAT program. I am used to being able to reach out to an instructor and being given guidance or being told where I can find further resources to assist me with any problem I may be encountering. In this course I had multiple emails asking about assignments that were not answered so I had to seek help from other students only to find out that they were encountering the same thing.
  - I worked hours and hours on this course and my grades in this class will be bringing down my GPA and it is so frustrating because I want to learn about this subject more and my grades make me feel that I do not have a good handle on the subject. If the feedback would have been in a reasonable time, I feel like I could have had a better understanding of what he was looking for.
