## Comments Report

### 2. More Than One Instructor:

2.1) **If your course had more than one instructor,** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- Schroeder
- Schroeter, Jones
- Yolonda Schroeter
- shroeter

### 6. Open Response:

6.1) What are the strengths of this course?

- Having an instructor that make things clear while helping you gain the knowledge you need for the future.
- I loved having Mrs. Schroeder as my clinical instructor. She seems to always have the answer to my question and has a way of building your confidence when you have no idea what you are doing. I have learned so much from her.
- Mrs Schroeter is an amazing clinical instructor and is very knowledgeable about the information we are learning in this class
- Mrs. Shroeter is awesome. Her knowledge when it comes to meds and assessments have helped immensely.

6.2) What changes would you recommend that would improve this course?

- I don't see the benefit of sooo much documentation. I feel like I was rushing to get my Packet complete but the quality was poor once we got to your patients. I would have learned more documenting really well on one pt. I also do not see much of a benefit to online documentation. Its not. electronic. It the same thing as the paper. I wish there was more consistency over all. Each instructor has preferences and your grade sometimes changes because of that. I also dislike the fact that a couple of students made it through the program and missed sooo many days, clinical and Lecture. Clinical Days should not be optional. We all have a life and kids and stress. We make it work.
- I would like to improve more equal documentation grading between professors as some instructors grade drastically different then other following the same grading rubric
- minimize the amount of documentation so we can follow around our nurse more and get more hands on skills. I know maybe not possible, but it would help.

6.3) Any further, constructive comments?

- Mrs Schroeter has done an amazing job they whole year and is one of my favorite instructors.
- Mrs. Schroeter was very helpful during this course. I loved clinicals with her.  
Mrs. Jones was very difficult and her grading did not match the syllabus.
- Ms.S is a great clinical instructor. She really go over and beyond to make your understand things and when she doesn't have the answers she will get the information and present it to you .
- none.
