User name is first initial of first name, last name, and last 4 digits of your Student ID number (ex: jdoe1234). Initial password is lowercase letters bc followed by your six digit PIN number (ex: bc123456). (Your PIN number is the number issued by the registrar that you use to register online through myBC.) Once logged into the Virtual Campus, the course is listed as GOVT2305-DJONES-2ONLASYNC.

Students who have difficulty logging in for the first time or have other technical issues such as browser problems can contact the Brazosport College Information Technology Center by emailing [helpdesk@brazosport.edu](mailto:helpdesk@brazosport.edu) or by phoning the IT Helpdesk at 979-230-3266.

## COURSE PROCEDURES

An internet course offers flexibility but the content and requirements of this course are similar to courses delivered in a traditional classroom setting. It is imperative that each student maintains a disciplined pace over the semester in order to successfully complete the course. The student is responsible for all materials presented in the BC Virtual Campus and in the textbook (chapter outlines in the Virtual Campus are NOT a substitute for actually reading the textbook).

Submission of work (discussion response, submitting a quiz or exam) constitutes evidence of attendance. If a student stops “attending,” he/she will NOT be administratively withdrawn by the instructor. It is the student’s responsibility to initiate the withdrawal process before the college deadline for such action.

## EXAMINATIONS

There will be four exams and an optional comprehensive final exam. If a student takes five exams, the four highest scores will be used in calculating course grade. The four regular exams are closed-note assignments consisting of 50 (mostly multiple-choice with a few true-false) questions worth two points each plus 10 bonus current event (multiple-choice) questions worth one point each. Each exam module will have a PowerPoint presentation containing current political and economic events located next to the study guide at the bottom of the module. The optional final is a closed-note exam consisting of 100 (mostly multiple-choice with a few true-false) questions worth one point each plus 15 bonus current event (multiple-choice) questions worth one point each. There is an enforced one hour time limit for completing each regular exam and an enforced 1.5 hour time limit for completing the final **Exams will utilize Respondus LockDown Browser and Monitor. If you have problems using the software on your computer or tablet, call the IT Helpdesk at 979-230-3266.**

## QUIZZES AND ASSIGNMENTS

Regular quizzes are open-note assignments consisting of 10 (mostly multiple-choice with an occasional true-false) questions worth one point each. There is an enforced one hour time limit for completing each quiz so you should have plenty of time to be able to look up information as needed. Quizzes are set to allow a second attempt on missed questions. ***The first attempt will be used for grade purposes.*** Second attempt is solely to allow you to see questions that were missed. *Late work will receive reduced credit.*

## DISCUSSION

One of the features of the Virtual Campus is the ability to share perspectives through use of the discussions tool. There will be eight discussions to complete (two for each course module). Discussions are generally open-ended assignments to consider a topic most have probably not spent a lot of time thinking about. Your response does not need to be a lengthy writing exercise but it does need to demonstrate your THOUGHTFUL reflection on the topic. Some discussions are about an article or video posted in the Virtual Campus. For those discussions, you definitely need to address the information presented in the article/video before giving your personal thoughts on the topic. Demonstrate conclusively that you did in fact read the article/watch the video you are analyzing. **Use of AI (Artificial Intelligence) products for discussions will result in a zero for that discussion.** *Late work will receive reduced credit.*

*Course participants should respond to one another with respect at all times. Differing viewpoints are likely to be expressed and are welcome as long as each posting is stated in appropriate, respectful language. If you disagree with an idea stated in a classmate's posting, your response should focus on the substance of the idea without attacking or insulting the person who expressed the thought you take issue with. In short, we should be able to disagree without being disagreeable.*

## GRAMMAR

This is an academic course at an institution of higher education. Ensure that all written course communications (including email) are grammatically correct. This includes but is not limited to capitalization, punctuation, sentence structure and spelling. Do not write discussions in a style like you are texting a friend. You should be communicating with your instructor and fellow classmates in a professional manner. Discussions should be approached as if you are writing a document for management at work.

## GRADING

All course assignments must be turned in on or before the due date in order to receive full credit. Course grades will be determined as follows:

Exam 1	18 %
Exam 2	18 %
Exam 3	18 %
Exam 4	18 %
Quizzes/Assignments	18 %
Virtual Campus Discussions	10 %

**Note: If a student stops attending/participating in the course, he/she will NOT be administratively withdrawn by the instructor. It is the student's responsibility to initiate the withdrawal process before the college deadline for such action.**

Grade scale is as follows:

90.0 – 100	A	70.0 – 79.9	C
80.0 – 89.9	B	60.0 – 69.9	D
		< 60	F
